

Tricky Words – Set 1

We teach the children sets of 'Tricky Words' – words that have a tricky bit in them. These are words that cannot be sounded out using our phonic knowledge. The children will have to learn to recognise these words in reading books and to spell them in writing. In the classroom, children have 'Tricky Word' mats to support them in their writing. The tricky words are presented in a shape and colour to support the use of a tricky word mat in school. An example of a 'Tricky Word' mat can be found inside your child's Reading Record. We will teach all the yellow and blue words by the end of the academic year.
